

M - INDUSTRIAL ZONING AREAS

The following map shows the areas of the County zoned as "Industrial" areas. Industrial areas are of a large concern, mainly due to their potential to contain hazardous materials. Most industrial zones in Macomb County are located along certain corridors. The potential exists at these sites for a hazardous material incident at a fixed site, or in the transporting of materials. This map can be used to track the locations of Sara Title III sites within the County.

MACOMB COUNTY INDUSTRIAL ZONES (AS OF 2000)

SPALDING DeDECKER ASSOCIATES, INC.
